Of the Eclipses this Year 1674.

Five times this Year will the two Luminaries be Eclipsed, the Sun thrice, and the Moon twice, of which only the two of the Moon will be to us Conspicuous.

The first of the Moon is upon the 12 of *January*.

The	{	Beginning will be at	3 h. 42 m.	} Morning.
		Middle at	5 22	
		End at	7 02	
		Continuance of the Eclipse	3 20	
		Digits Eclipsed about 11.		

The second of the Moon is upon the 8 of *July*.

The	{	Beginning of the Eclipse is at	6 h. 45 m.	} at Night.
		Middle at	8 39	
		End at	10 34	
		Continuance of the Eclipse	3 49	
		Digits Eclipsed 12.		

The first of the Sun the 26 of *January* about 9 at night.

The second of the Sun will be upon the 23 of *July* about 2 in the morning.

The third of the Sun will be upon the 17 of *December* about 5 in the morning.

These three Eclipses of the Sun all happen at such times as the Sun is below our Horizon, and so cannot possibly be seen of us, and therefore I give no farther account of them.

The Dominion of the Moon, over the parts
of Mans Body, as she passeth through the 12
Signs, Explained.

Aries Head, Taurus Neck, Gemini Arms require.
Cancer Brest, Leo Heart, Virgo Guts desire.
Libra Loyns, Scorpio Secrets, Sagittarius Thighs,
Capricorn Knees, Aquarius Legs, and Pisces Feet
supplies.

January hath xxxi. Days.

Upon the 25. of this month is celebrated the *Conversion of St. Paul*, who whilst he was *Saul*, was a zealous persecutor of the *Christians*, so continuing until our *Saviour* appeared to him in light from Heaven, interrogating him in these words; *Saul, Saul, Why persecutest thou me?* After which his eyes were opened. and a *Saul* became a *Paul*, and this was in the 35 year of Christ.

On the 14 of this Month is *Valentine* Priest and Martyr, who suffered under *Claudius* the Emperor, Anno 271. by being first beaten by staves, and afterwards Beheaded, for not worshipping of the Heathen Gods: It is usual on this day for Men and Women to choose their Mates for the ensuing year (as Birds do about this time.) And some think that this *Valentine* was the first Author of this Fancy.

April hath xxx. Days.

In this Month (most commonly) we celebrate the great Feast of Easter, in honorable remembrance of our Saviours Resurrection, after his sufferings for the sins of Mankind—*Verset-*
gan faith, that Easter is so named of *Eoster*, a Goddesse of the
old Saxons: It is called *Ostun*, which comes of *Oster-Moent*,
which is our old name of April, in which month this great Feast
usually happens.

June hath xxx. Days.

The 24 of this Month is dedicated to St. John Baptist, the
Psalm  or Forerunner of our Blessed Saviour, who was
 this day born of his Mother *Elizabeth*, according to a promise
 made by an Angel to *Zachary*, as he (being a Priest) was
 Offering at the Altar.

July hath xxxi. days.

St. *James* the Apostle (for his courage surnamed the great) on the 25 of this month suffered Martyrdom by being beheaded *Anno Christi* 43. His courage was so great, that when going to his Execution he behaved himself so undauntedly, that by his resolution and courage he converted the Informer that was the Instrument of his end, so that he asked him forgiveness, and became co-partner in his sufferings.

August hath xxxi: Days.

On the 2 day of August the first Stephen Pope and Martyr: this Stephen having earnestly Preached up the Faith of Christ against the Pagan Deities, was by the command of Valerian (for denying to Sacrifice to their Idols) beheaded at Rome Anno Christi 258. after he had been Pope seven years and five months.

December hath xxxi. Days.

On the 25 of this month is celebrated the Nativity of our blessed Lord and Saviour, That he was born in the year of the World 3967 is learnedly disputed and determined both by the learned Gregory and famous Selden, and upon the 25 of December, both by the forementioned Authors, but by Luther and others before them.

Of the Four Quarters, or Seasons of the Year.

Of the Spring.

THIS Quarter taketh its beginning upon Tuesday the 10 of March, at 4 of the Clock in the morning, at which time the Sun enters the first scruple of the Vernal Equinoctial Sign Aries, making equal days and nights throughout the World: The proper nature and quality of this Season, is Hot and Moist; Hot in respect of the Suns ascending nearer to the zenith or Vertex; and moist in respect of the preceeding Winters Vicinity.

Now Tirans presence begins to revive

As well things sensible as vegetive.

Of Summer.

THIS Quarter beginneth on St. Barnabas day, being the 11 of June at 7 of the Clock in the morning, the Sun having then arrived to his utmost Limits Norward, even to his Tropical point Cancer, thereby making the longest days and shortest nights to all Northern inhabitants of the World: The nature of this Season is Hot and Dry.

Now Reapers panting both with heat and pains,

With crooked Raisors shave the rusted Plains.

Of Autumn.

AUTUMN begins this Year upon Saturday the 12 of September, about 10 at night, the Sun being now returned from his greatest Northern Progress, to his Autumnal Equinoctial Sign Libra, making again the days and nights of equal length: This Quarter is naturally Cold and Dry.

Now that Good Husband which due season takes,

In these three Months his Years provision makes.

Of Winter.

WINTER beginneth this Year on Friday the 11 of December, about 10 in the Forenoon, the Sun being then at his greatest distance from the Equinoctial Southward, he then enters Capricorn, and makes the days shortest, and the nights longest: This Quarter is naturally cold and moist.

Now for the bringing these Seasons and their names to remembrance, take this of Ovid.

Poma dat Autumnus, Formosa est messibus Æstas,

Ver prebet Flores, Igne levatur Hyems:

Autumn gives Fruit, and Corn makes Summer fair,

Spring shows us Flowers, Fire helps cold Winters Air.

The Value of the Purchase in

The Value of the Purchase

The Value of the Purchase in

*The Use of the foregoing Table, for the
Purchase of Leases, &c.*

The Table consists of five Columns: The first contains any number of Years that are to be purchased, from 1 year, to 100.

The second tells you how many years and odd Months purchase such a Lease is worth in ready Money, 5 *l. per Cent*, being allowed for the interest of the Money laid out. The third Column shews what the same is worth at 6 *l. per Cent*. The fourth at 8 *l. per Cent*. And the last at 10 *l. per Cent*. Example, What is a Lease of 51 years to come, worth in ready Money, at 5 *l. per Cent*. Also, look in the first Column for 51 years, and right against it under V *per Cent*, you shall find 18. 3. which shews the Lease is worth 8 years purchase, and 3 months, which is a quarter of a year; so that if the Rent were 10 *l.* a year, then 18 times 10 *l.* is 180 *l.* and the quarter of the year is 2 *l.* 10 *s.* in all 182 *l.* 10 *s.* and so much is the Lease worth in ready Money at 5 *per cent*.--- But if the Purchaser would have 6 *l.* 8 *l.* or 10 *l.* profit for his Money, then

	l.	Profit for his	Y. M.	Purchase	l.	s.	d.
At	6	money the	15-9	which	157-10	0	
	8	Lease is	12-3	comes to	122-10	0	
	10	worth.	9-11	but	99-3		

And thus you may do for any other number of Years.

	l.		Years.	Months.	
So, a Lease	5	per Cent. is worth	12	10	Pur- chase,
for 21 years	6		11	9	
at	8		10	0	
	10		8	11	

let the Rent be what it will.
